

NOT ALONE T-shirt

When I heard about the earthquake in Christchurch, it was heart breaking as there were so many people affected by this disaster.

When I heard about Japan's earthquake from my friend in Tokyo few minutes after it happened, I did not think of it too much until I came home and switched on the TV.

Then, I was glued to the TV and shaken by the fact that we had witnessed a huge Tsunami on live and we have lost so much!

Since then, my perspective on life has changed as we don't know what happens tomorrow or even in the next second.

But you can't worry too much about it as we need to live and step forward everyday. So I decided to do my part by helping people in Christchurch and Japan.

Thanks to Charlotte Cubitt for helping us with the design.

With this T-shirt, I want people to remember these events which took so many lives of Kiwis and Japanese. I also wanted to help them in someway. 50% of profit goes to Christchurch Earthquake fund and the other 50% goes to Japan Earthquake fund.

Thank you for your support!
